Full Stack Web Developer with a certificate in full stack web development from the University of Arizona. Skills in HTML, CSS and JavaScript and strengths in problem solving, teamwork, meeting deadlines and creativity. Productively rebranded an agency, which resulted in an increase in the number of leads.

Known as an innovative problem solver passionate about approaching programming challenges at different levels and collaborating with others to create meaningful web applications. Recently collaborated in a team of three to develop a project which covered the aspects of agile development to create an inventory tracker that specifically keeps track of computer parts by retrieving multiple offers from a wide range of merchants. Positioned to leverage my skills as part of a fast-paced quality-driven team to build better experiences on software applications.

TECHNICAL SKILLS

Languages: JavaScript ES6+, HTML5, CSS3, SQL, NoSQL

Applications: GitHub, MongoDB, CSS3, SQL, NoSQL
